Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Applicant's Amendment

Applicant's amendment filed May 16, 2006 has been thoroughly reviewed and considered by the examiner. In view of applicant's persuasive arguments, the prior rejection of claims 1-13, 15-37, 40 and 41 under 35 U.S.C. 103(a) as being unpatentable over Ku et al (U.S. Publication No. 2004/0011404) in view of Ohmi et al (U.S. Patent No. 6,193,212) is hereby withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 38-41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In line 1 of claims 38-41, "valve assembly" lacks antecedent basis (preamble) and should read "method."

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hunkapiller (U.S. Patent No. 4,558,845). The patent to Hunkapiller disclose an electronically controlled valve assembly comprising a valve body (12) having at least two inlets and an outlet below the valve seat, a solenoid coil (46) and a piston (48); col. 4, lines 15-21 and Figure 2. Gas is used as the fluid source, col. 5, lines 35-58.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kowalski (U.S. Patent No. 3,921,111). The patent to Kowalski discloses an electronically controlled valve assembly comprising a valve body having a valve seat (78), two fluid inlets (98), a fluid outlet (72), a piston (66) movable within the valve body above the valve seat (78) between an open position and a closed position, the piston being configured to seal the inlets when the piston is moved to the closed position and a magnetic member (36) for electromagnetically actuating the piston. It would have been an obvious design expedient to one of ordinary skill in the art at the time of the invention to use the valve of Kowalski to control the flow of gas as an alternate fluid source.

Allowable Subject Matter

Claims 2-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 38-41 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 22-37 are allowed.
